## The Intelligenter.

## Our Moundsville Letter.

Democratic Nominations - The Anti-Ring Candidates acceptable to the people—A Literary Entertainmen.

MOUNDSVILLE, Sept. 30th. it tors of the Intelligencer:
I'drauant to a call of the Chairman of

the Executive Committee, the Democracy of Marshal county met at the Court House, day before yesterday, to select candidates for the House of Delegates. V. L. Cockayne was called to the chair and T. J. Patton elected Secretary. The following names were presented to the Convention as candidates for the honors to be conferred, viz: John Jefferson, Frank McJilton, Esq., S. S. Newman and James Shroads. On the first ballot the two last named were nominated, and on Executive Committee, the Democracy two last named were nominated, and on notion their nomination was made upanimous. Some other business was transacted such as appointing Executive Committee, &c. I suppose the nominations are as good as could be made, and it is predicted that they will be elected by a handsome majority. This prediction though needs to be verified. I apprehend that there will be one great drawback to their election, i. e, that they will not receive votes enough by about two hundred, or perhaps more.

ELECTIONERRING LIVELY. Our Circuit Court is now in session and Our Circuit Court is now in session and we see a great many people from the country. The different candidates are on hand and are doing some strong electionering, but as to whether it will do any good remains to be seen. Men from different parts of our county speak in high-est terms of the nominee of the Wheeling Convention, and predict that Goff will re-Convention, and predict that Goff will re-ceive the full vote of both the Republican and Jacob Democrats. If this be the case

AN ELOCUTIONARY ENTERTAINMENT on next Monday night by Jas. A. Mar-shall, of Ohio. It will be held in our new

Marshall is good for 400 majority.

School Hall, which has lately been furnished with chairs and is now capable of nished with chairs and is now capable of comfortably seating a large audience. Mr. Marshall has been successful as an elocu-tionist, and we bespeak for him a full house. One-fourth of the net proceeds will be given for the benefit of the school. OUR CHURCHES.

The members of the Disciples' Church have employed a minister, and hereafter will have regular service at their church building, formerly Liberty Hall. Mounds-

ville can now boast of five denominations, each of which hold regular service, viz: Episcopal, Methodist Episcopal, Presbyterian, Disciples, and Catholic. We surely do not want for divine service on the Sabbath. Yet, strange to say, there are many people in Moundsville who are selen within the door of a church. FALL GOODS.

Business is opening up rather brisk, Some of our merchants are laying in their tall stock of goods. Wheat, oats and corn are being daily brought from the country. Our mills are both kept busy, and much grain is being shipped.

How to have Good Cider.

Professor Horsford, of Harvard University, has published a receipt for improving and preserving cider, by means of which the progress of the vinous and acetic fermentations may be arrested at pleasure, and the cider preserved in just such a state as may be desired. It is this

"Put the new cider into clean cashs or barrels, and allow it to ferment from one to three weeks, according as the weather is cool or warm. When it has attained to a lively fermentation, add to each gallon three-tourths of a pound of white sugar, and let the whole ferment again until it and ict the whole ferment again until to possesses nearly the brisk, pleasant taste which it is desirable should be permanent. Pour out a quart of the cider, and mix with it one quarter of an ounce of sulphite of lime for every gallon the cask contains. Stir it until it is intimately mixed, and pour the emulsion into the liquid. Agitate the contents of the cask thoroughly for a few moments, then let it rest that the cider may settle. Fermentation will be arrested at once, and will not be resumed. It may be bottled in the course of a few weeks or it may be at course of a few weeks, or it may be al-

lowed to remainin in the case and used on draught. If bottled, it will become a sparkling cider of surpassing excellence. Professor Horsford was the first to use the sulphite of lime for this purpose, and to him is due the credit of first calling atto him is due the credit of hims caming attention to its uscillness. It is in no respect deleterious, as the sulphate into which the sulphite is changed by the liberation of sulphurous soid is entirely insoluble and remains at the botton of the vessel. Remember, it is the sulphite of lime, not sulphate, must be used. The quality of the cider will remain unchang-ed for years.

NEW METHOD OF COAL MINING .- A NEW METHOD OF COAL MINING.—A new method of mining coal is soon to be tested in the Watson mines, at Knights-ville. Mr. Watson, Sr., has been to Europe and learned some new ideas concerning mining. He is now having a machine made for boring and drilling, which will be operated by means of air compressed to 60 pounds to the equare inch. The machine will be in the mine, and the compressed air will be conducted to it through pipes from a steam engine inside, except that there will be no fuel burned except that there will be no fuel burned and no steam. But the air, after having been used in the machine in the same way that steam is used in an engine, will be liberated in the mine and help to ventilate it.—Terre Haute (Ind.) Journal.

Popping The Question.

Don't be too sudden about it. Many a girl has said "no" when she meant "yes," simply because her lover didn't choose blinds closed, the curtain down, and the lamp turned almost out. Sit near enough to her so that you can hook your little fingers into hers, Wait until conversation begins to flag, and then very quietly will give the state of t remark : We are to be favored with a treat in the

'Susie, I want to tell you something." She will fidget around a little, reply "yes" and, after a pause, you can add:
"Susie, my actions must have shown—that is, you must have seen—I mean you must be aware that-that-.

Pause here for a while, but keep your Fause here for a while, but keep your little finger firmty locked in hers. She may cough and try to turn the subject off by asking you how you liked the circus, but she only does it to encourage you.

After about ten minutes you can conCentral.

Lake Shore, 27,000 Union Pacific, 51,000 Northwestern, 14,500 Rock Island, 29,000 but she only does it to encourage you.

After about ten minutes you can conCentral.

"I was thinking, as I came up the path this evening, that before I went away I would ask you—that is, I would broach the subject nearest my—I mean I would know my-

Stop again and give her hand a gentle

Stop again and give her hand a gentle squetzz. She may give a yank to get it away, or she may not; in either case it augurs well for you.—Wait about five minutes and then go on:

"The past year has been a very happy one to me, but I hope that future years will be still happier. However, that depends entirely on you. I am here to-night to know—that is, to ask you.—I mean I am here to-night to hear from your lips the one sweet.—"

Wait again. It isn't best to be too rash about such matters. Give her plenty of

about such matters. Give her plenty of out your hand on your heart and con-

of nappiness or a summer fallow of Canada thistles. Speak, dearest Susie, and
say—and say that—that—

Give her five minutes more by the clock, and then add:

"That you will be—that is, that you will be mine!

will be mine!
She will heave a sigh, look up at the clock and over to the stove, and then, as she slides her head over on your vest pocket, she will whisper:
"You are just right, I will?"—M. Quad.

The Pay of Letter Carriers to be Reduced. [Washington Star ]

The Postmaster General has issued a circular to the postmasters of all free delivery offices, stating (1) that the present division of such offices into classes is on division of such offices into classes is on the basis of population; (2) that the carriers at offices of the first class shall be appointed at a salary not to exceed \$700 wheat closed steady and in moderate demand; 94c October, 94fc cash. Corn costmasters and their pay increased \$100 cash \$100 c postmasters, and their pay increased \$100 | casb; 811c October; 74c seller the year. at the expiration of each year's service, on the recommedation of the postmaster,

way that steam is used in an engine, will be and \$500 to carriers who have been bettered in the mine and help-to ventile in service one year, shall be increased these—"I'm. Whisky—Steady with a late it.—Terre Haute (Ind.) Journal.

On yes, go West young man. While the Western farmers have been battling for life with the grasshoppers, the receipts of the blueberry pickers near Machias, Maine, have aggregated \$1,000 per day.

Western farmers have been battling to information of postmasters and letter of the blueberry pickers near Machias, Maine, have aggregated \$1,000 per day.

A TOUGH BILL OF FARE.

You Pays Your Money and You Takes Your Choice.

A gentleman just arrived from Chatauqua hands us a bill of fare, circulated under the imprint of the Jamestownhouse, but doubtless gotten up and placed in that guise by some wag. The follow-ing is a copy of this rather tough bill of fare.

Sour—Peanut, Viper, Mackerel, Chipmunk, Beetle, Corncob, Skunk, Frog.

Ban. Potato Bug.

\$100,000, and hence the Department is unable to increase the pay of carriers from July 1, 1874, in accordance with previous usage. The policy of the Department under its present head, in respect to the appointment and increase of pays of carriers, is clearly set forth in this order, and will be strictly carried out, provided the annual Congressional appropriations are sufficient for this purpose. This order, which takes effect October 1st, next, does not affect the present pay of fare:

Sour—Peanut, Viper, Mackerel, Chipmunk, Beetle, Corncob, Skunk, Frog.
